

IN THE CLAIMS

Please amend the claims to read as follows:

1. (Currently Amended) Foil for food packagings comprising ~~at least one a first~~ layer of an aluminum material, ~~wherein the foil has~~ at least a second layer of an aluminum material, and at least one ~~extruded~~ extrusion-lamination layer of a tear-resistant polymer, wherein at least the second layer of aluminum material comprises an aluminum foil.
2. (Currently Amended) The foil according to claim 1, wherein the first layer of an aluminum material ~~is formed as~~ comprises an aluminum foil.
3. (Currently Amended) The foil according to claim 1, wherein the first layer of an aluminum material ~~is formed as~~ comprises an aluminum layer deposited by evaporation onto a plastic film.
4. (Currently Amended) The foil according to claim 1, ~~wherein~~ further comprising a sealable layer co-extruded with the layer of tear-resistant polymer ~~is provided.~~
5. (Cancelled).
6. (Currently Amended) The foil according to claim ~~5~~ 1 wherein the aluminum foil has a thickness of 5 to 20 μm .
7. (Currently Amended) The foil according to claim 1, ~~wherein~~ further comprising at least ~~an~~ one adhesion promoter layer co-extruded with the layer of tear-resistant polymer ~~is provided between the~~ one of the layers of an aluminium material and the layer of tear-resistant polymer.

8. (Currently Amended) The foil according to claim 1, wherein the layer of tear-resistant polymer consists at least partly of ~~an~~ a polyamide, a partly crystalline, microcrystalline or amorphous polyamide, a polyester, a crystalline, partly crystalline ~~of~~ or amorphous polyester, polypropylene, a high density polyethylene, and olefin copolymer or ionomer, a cyclo-olefin copolymer, a liquid-crystalline or rigid-chain polymer, polymer blends or a reinforced polymer
